

CHARTA CAELI

Legend

Southern declination limit: -20°

Grid width for Declination: 10°
 Grid width for Right Ascension: 1^h
 Graduation for Right Ascension: 5^m

Grid width for galactical altitude: 15°
 Grid width for galactical azimuth: 45°
 Graduation for galactical azimuth: 15

Catalogues used: The Milkyway Contour Catalogue
 The NGC 2000.0 Catalogue (VII/118)

Symbols used for VII/118 catalogue

- ⊕ Point of interest
- Common star
- Double star
- ⊙ Multiple star
- ⊙ Variable star
- * Variable star with large amplitude and high frequency
- * Variable star with large amplitude and low frequency
- ⊙ Variable star with low amplitude and high frequency
- * Variable star with low amplitude and low frequency
- Bright nebulae
- ⊠ Dark nebulae
- ⊠ Planetary nebulae
- ⊙ Open cluster
- ⊙ Globular cluster
- ⊙ Flat galaxy with elliptic shape
- ⊙ Galaxy with elliptic shape
- ⊙ Galaxy with circular shape
